There's No Picture Like the Picture of Health

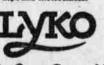

The greatest master-piece in the Art Gallery of Life is Nature's "Picture of Health".

It is a mary lons portrayal of the human body at its best. One beholds in its composite details true symbol of strength. It presents a figure of striking appearance in its erect carriage, clear skin, sparkling eyes, strong limbs, stready nerves and firm muscles; fairly vibrating in animation—keen, alert, fresh, and spirited; with an air of unbounded confidence and a face radiant in color and illuminated with a glow of hope and cheerfulness.

Could Nature have taken you for her model? Suppose you study yourself in the mirror of the present and compare your looks, your feelings and your condition with the general characteristics of this picture of the human body in perfect working order, all parts of which are sound, well organized and disposed, performing their functions freely, naturally. If you fall in any includes performing their functions freely, naturally.

If you fail in any single point of resemblance, you are not the picture of health.

It's imperative, then, that you look to a means to rebuild your strength, energy and vigor—to bring your body up to a nermal state of efficiency in all of its parts.

news that the big coal strike was to be called off at once would have stimulated a sharp rise in cotton. As it was there was pienty of steadiness, but only a moderate advance as measured by recent standards. In the mindse of many well-posted people the increasing evidence of stronger money rates is becoming worthy of consideration and is helping to hold in check disposition to continue buying. It is believed the effect of this tightening is going to be salutary and possible avert some serious troubles later.

DAILY INTERIOR.

The strike news was known before the opening and created a feeling of distinct optimism, for it was thought to mean better things in the general industrial situation. The firm stand taken by the government and the attitude of the miners' leaders in the face of it was interpreted to mean that the day of rank radicalism is beginning to pass. This view naturally stimulated bullish feeling. Memphis sty 10,038 s3.06 43.06 141,113

NEW YORK COTTON NEW YORK, Nov. 11.—The calling off the coal miners' strike and an unbut no frost reported.

Liverpool was due to come off several points, but was better on the strike news on this side. Toward the close strength increased and finals were very steady at gains of 28 to 9 points. Spots were marked off 29 points, middling to 25.31d, with sales 10.000 bales, imports for the day were 49.000 bales, including 35,000 American. Manchester advised that cloths were active and yarns firm.

First prices on this side were firm and higher, but some profits were accepted and a temporary dip followed the early buige. March in New York opened at 36.25c, dipped to 36.04c and then sold up to 35.55c. The buying power failed to continue so general and more liquidation came in, but failed to bring about much recession, as spots were too steady and some wires told of continued demand for certain grades and characters. In the afternoon advices from interior points told of more spot activity and that sent prices back almost to the early high points.

Futures closed 35 points up to 56 lower; tone easy.

New Orleans closed 30 points up to 56 lower; tone steady. Spots were unchanged, middling at 40.50, and sales were 2.969 bales.

NEW ORLEANS, Nov. 11 .- Only ioderately active market was seen in cotton on the opening today, although the ending of the coal strike was re-garded as news of the highest im-portance and the weather map reflected extremely unfavorable conditions in the belt. In the first half-hour of trading prices gained 44 to 47 points. One rea-son for the quiet way in which the market acted was wire trouble in many directions which prevented the interior from trading.

Corn Starts at Decline and Calling Off Strike Has Good Later Weakens Somewhat Effect on Values, But Profits Taken.

CHICAGO, Nov. 11.—Corn prices weakened today owing largely to announcement that representatives of the mine workers had voted to reseind the order to strike. Opening prices, which ranged from Se to 1%c lower, with Docember \$1.32 to \$1.33 and May \$1.25% to \$1.25% were followed by a slight rally and then by a sag lower than before.

before.
Subsequently the fact that cash whent prices were but little affected by the government offer to resell wheat led to a rally in the corn market. Closing quotations of corn were unsettled at the same as vesterday's finish to \$40 net lower, with December \$1.22 to \$1.33½ and May \$1.25½ to \$1.25%.
Oats declined with corn. After opening unchanged to \$c lower, including December at 71c to 71½0, the market continued to descend.

Provisions were casier as a result of setbacks in the value of corn and hogs.

Sentiment may be affected in corn temporarily, but prices can not be permanently depressed except by a more liberal movement of the actual grain. Chicago—The idea of the corn traders is that fears are to increase from now, as cars may become more plentiful. This the bears figure will depress values, unless the industries and shippers take hold freely, in case of an enlargement in the offerings. Commission houses who turned to profit side on long corn around the top last week covered their short sales put out on the bulge last week, around the lowest prices yesterday and are looking for a rally under existing conditions. Receiving houses with Western connection say country speculators are more disposed to consign their corn than sell to arrive. One of the largest buyers was not bidding for to arrive. A petition for increased pay, presented by the negro teachers in the Memphis public school system, was given to the board of education at its regular meeting Monday night. The petition was referred to the finance committee without being read. This action is in line with the request made some time ago by the members of the Memphis Teachers' association, comprising a majority of the white teachers in asking for increased pay. This latter could not be met by the board because of a lack of funds.

Only routine business was transacted by the board Monday night, the report of the superintendent for the month of October, election of a number of teachers to fill vacancies, and a plea by C. C. Pashby, city clerk, for a refund of approximately \$4.000 now in the hands of the school board received as a premium on the last issue of school bonds. Prof. Wharton S. Jones, superintendent of schools, reported increased schools, and particularly in tentral high schools, the number being several hundred over the same month of last year. His visits to the various schools, the report stated, showed them to be in flourishing condition and the work-study-play pian now being tested out at the Rozell school is fairly successful although the work is somewhat hampered by the lack of a manual training teacher. He submitted the applications of three men for this position and the matter was referred to the teachers and textbook committee.

Mr. Pashby was advised to consult with Marion G. Evans as to an opinion

The association, which was formed less than a year ago, now has about 400 members in the three states and has to its credit the largest show of rabbits and pigeons ever given in the South. This was the exhibition made by the members at the recent Tri-State fair. The association also gave a big show in Memphis during the past summer, which, like the larger one, attracted national attention.

NEW YORK, Nov. 11.—New low records on English, French and Italian exchange were made today in the local market. A pound steeling brought only \$4.12 for demand bills and an American dollar brought 9.37 frame checks and 12.32 Italian life. Heavy offerings of commercial bills on foreign houses which met with little response from huyers caused the decline.

The previous low record in sterling exchange was made Aug. 20 when a pound sterling brought \$4.12%. The rate in normal times was around \$4.87. Franc checks at \$2.7 were 17 centimes below the previous low price, while life at 12.32 were 52 centimes off yesterday's low price, the provious low record. The normal rate on both france and lires was approximately 5.18%.
